

WeeklyReport_2018-01-07_01-13_E

Week Overview

- this month will be very hard for me (preparing for the final work)
- workTime: $8 + 8 + 8 + 5 + 9 + 8 + 8 = 54$ hours

Project: RSATree

- The project has basically ended, waiting for the revision of the mei paper

Project: Dimension Reduction

- I modified a big bug above the evaluation part of the code, This bug was written in my summer vacation and has not been discovered.....
- The main job is that liangjun did the multicore-tsne test on my computer, and I was responsible for the crazy huashui.

GM, CG Course

- write the paper of the GM, about the sketch based interface modeling
- Submitted the assignments

Machine Learning Course

- complete the homework of assignment3 and assignment4
- prepare for the 24th final exam next week

Daily affairs

- Completed the ppt of Group report
- read the paper Formalizing Visualization Design Knowledge as Constraints: Actionable and Extensible Models in Draco carefully
